TALKING TO A PACE OF POOLS who did not know what the U. P. road was worth per mile. The people know pretty well what the road is selling for. They also know that the United States government paid from twenty thousand to forty-eight thousand dollars per mile to build this road They also know that the government gave this company a land grant of every other section of land for twenty miles on either side of the road. And they are perfectly well aware that the company pays no taxes on said land.

But, curious to say, Mr. Green DID NOT MENTION THESE THINGS. W He never said a word about the bridge toll nor the rebates which several of our heavy dealers get from the railroad company. In fact he studi-ously avoided every issue of any importance before the people of this state. He dared not honestly discuss the subjects he was announced to speak upon. He came here to work in the interest of the railroads and he did his duty well. Yours truly, "Jack Stump."
